

National Survey

1,519 registered voters nationwide March 1-7, 2022

Toplines

D1. Are you male or female?

46% Male
54 Female

D2. In what year were you born? [recoded to the following age buckets]

18% 18-34
23 35-49
31 50-64
28 65+

D3. What is your race/ethnicity?

74% White / Caucasian
10 Black or African American
9 Hispanic or Latino/a
1 American Indian or Alaska Native
5 Asian or Pacific Islander
1 Other

D4. What is the highest level of education you have completed?

14% High school diploma or less
31 Some college, but no degree
10 Associate's degree, or two-year college degree
28 Bachelor's degree, or four-year college degree
17 Graduate degree

D5. Generally speaking, do you think of yourself as a:

26% Strong Democrat
7 Weak Democrat
13 Ind Democrats
10 Independents
11 Ind Republicans
5 Weak Republican
27 Strong Republican

Q1. Do you support or oppose America taking each of the following measures in response to Russia's invasion of Ukraine:

	<u>Support</u>		<u>Oppose</u>		Not sure	Total Support	Total Oppose	Net Support
	Very	Somewhat	Somewhat	Very				
Sanctioning Vladimir Putin personally	80	10	3	3	4	90	7	83
Prohibiting Russian banks from accessing US and global financial systems	79	10	3	3	4	90	7	83
Prohibiting Russians from flying over US airspace	77	13	4	3	3	90	7	83
Economic sanctions on Russia	74	14	4	4	4	88	8	80
Blocking Russia's oil and gas exports to the US	73	12	5	5	5	85	10	75
Seizing the property of Russian oligarchs in America	69	14	5	5	6	83	11	73
Providing weapons to Ukraine	68	21	4	4	4	88	8	80
Providing economic assistance to Ukraine	63	21	5	6	5	84	11	72
Allow Ukraine to join NATO	61	17	6	5	11	78	11	67
Direct military action by the U.S. military	16	23	20	31	10	39	51	-12

Q2. Do you support or oppose America accepting refugees escaping violence from:

	<u>Support</u>		<u>Oppose</u>		Not sure	Total Support	Total Oppose	Net Support
	Strongly	Somewhat	Somewhat	Strongly				
Ukraine	54	26	7	9	3	80	16	64
Afghanistan	40	28	10	20	3	67	30	37
The Northern Triangle countries of El Salvador, Guatemala, and Honduras	38	22	13	24	4	60	37	23

Q3. Do you consider each of the following countries an ally, a competitor, or an enemy of the US?

	Ally	Competitor	Enemy
The United Kingdom	91	9	1
Ukraine	80	15	5
Mexico	59	35	6
China	3	41	55
Russia	2	18	80

Q4. Is America in a new cold war with Russia?

49% Yes
20 No
32 Not sure

Q5. Is Russia's invasion of Ukraine a:

72% Major threat to US interests
20 Minor threat to US interests
9 Not a threat to US interests

Q6. How motivated are you about voting in the November midterm election on a scale from 0 to 10, where 0 means you are not motivated at all and 10 means you are extremely motivated?

1 0 - not motivated at all
0 1
0 2
1 3
1 4
4 5
3 6
4 7
4 8
4 9
78 10 - extremely motivated

Q7. How much have you heard about:

	A lot	Some	Only a little	None
The Russian invasion of Ukraine.	90	9	1	0
Issues with the supply chain.	59	29	7	4
Senators Joe Manchin and Kyrsten Sinema blocking the Biden agenda.	56	26	8	11
The CDC relaxing their masking guidelines.	50	38	11	2
Joe Biden's State of the Union Address.	50	24	16	10
Biden and Democrats' economic plan to raise taxes on the rich and corporations.	38	32	18	12
The nomination of Ketanji Brown Jackson to the U.S. Supreme Court.	36	38	17	8
The bipartisan infrastructure law that was signed into law in November 2021.	35	37	20	8
Biden and Democrats' economic plan to address climate change, establish universal pre-K, and reduce the cost of health care.	35	33	17	15
Kanye West's feud with Kim Kardashian and Pete Davidson.	18	13	26	43

Q8. President Biden has nominated the first Black woman to the Supreme Court. In general, will that be a good thing or a bad thing for the country?

51 Good thing
16 Bad thing
34 Neither/Not sure

Q9. Which THREE of the following are the most important issues facing the country:

43 Fair elections
42 The economy and jobs
33 Immigration
31 Healthcare
30 National security
26 Corporate greed
25 Climate change
22 Racism & discrimination
16 Infrastructure
13 Taxes
10 COVID-19
9 Guns

Q10. A year from now, do you think things will be better, worse, or about the same as they are today with respect to each of the following:

	Will be better in a year	Will be about the same in a year	Will be worse in a year
The coronavirus	55	37	8
The U.S. job market	32	35	33
Your personal finances	30	42	28
The U.S. economy	29	23	47
The price of everyday goods	22	18	60
The immigration system	13	43	45
Healthcare costs	9	38	53

METHODOLOGY

Change Research surveyed 1,519 registered voters nationwide from March 1-7, 2022. We used targeted advertisements on Facebook and Instagram, as well as across the web via Facebook's ad platform to recruit respondents.

Regardless of which of these sources a respondent came from, they were directed to a survey hosted on SurveyMonkey's website.

Ads placed on social media targeted all registered voters living in the U.S. As the survey fielded, Change Research used dynamic online sampling: adjusting ad budgets, lowering budgets for ads targeting groups that were overrepresented and raising budgets for ads targeting groups that were underrepresented, so that the final sample was roughly representative of the population across different groups. The survey was conducted in English.

The survey was conducted online by Change Research. Post-stratification was performed on age, gender, education, race/ethnicity, 2020 presidential vote and region. Weighting parameters were based on demographic breakdowns from the voter file. That is, if a given age bracket or gender group represented x% of all registered voters, then that same group would be weighted to x% in this survey.

The modeled margin of error* for this survey is 3.1%, which uses effective sample sizes** that adjust for the design effect of weighting.

* We adopt The Pew Research Center's convention for the term "modeled margin of error"(1) (mMOE) to indicate that our surveys are not simple random samples in the pure sense, similar to any survey that has either non-response bias or for which the general population was not invited at random. A common, if imperfect, convention for reporting survey results is to use a single, survey-level mMOE based on a normal approximation. This is a poor approximation for proportion estimates close to 0 or 1. However, it is a useful communication tool in many settings and is reasonable in places where the proportion of interest is close to 50%. We report this normal approximation for our surveys assuming a proportion estimate of 50%.

** The effective sample size adjusts for the weighting applied to respondents, and is calculated using Kish's approximation (2).
